

## Manufacturing Guidelines

**We do not dye polyester, acrylic, leather, suede and finished garments made of wool and wool blends. Client must provide all fabrics and pricing is for dyeing only. On large orders Dye Pro Services will need to sample dye the fabric or garment before giving estimated pricing.**

Weight of fabric	10 - 5"X5" samples	20 - 5"X5" samples	10 - 5"X5" samples + 1 yardage sample (max 3m)
Shirtweights, Drapes & Sheers	\$30	\$50	\$70
Pantweight & mid weight upholstery	\$35	\$55	\$100
Coatweight & heavy weight upholstery	\$40	\$60	\$125
Coatweight wools	\$50	\$70	\$160

- Fabric or garments that are brought in to be dyed **must** be the same fabric that was originally sampled. Should the fabric or garments to be dyed be different from the original fabric or garment that was sampled, the order will be suspended until a new pricing estimate has been re-approved by the client.
- Estimate pricing is based on "one fabric, one colour, one vat"
- All fabrics are dyed and colour matched by hand. Slight discrepancies may occur for this reason.
- Manufacturing orders are required to be paid by VISA, MasterCard or Debit Cards only. All orders must be paid in full at time of drop off or prior to shipping.
- Pricing does not include Shipping, Handling and GST.

I have read, understand and accept the manufacturing guidelines as outlined above and have circled our desired choice of sampling and supplied all necessary fabrics.
