Pricing serves as a general estimate and is subject to adjustment. Price depends on the volume of total order, fabric content, weight of Goods when wet and desired depth of colour and shade. Pricing does not include fabrics. All prices are subject to additional shipping, handling & GST charges. We do not dye polyester, leather, suede and finished garments and hats made of wool and wool blends.

All of our dyeing is done by hand. Price includes fabric preparation, auxiliary chemicals, post fixative, detergents, dyes, rinse & spin. We lightly press fabrics and garments after dyeing but are not professional drycleaners. The maximum length of fabric we can dye at one time is 5m depending on fabric type, width and volume. We recommend washing all dyed garments in a delicate cycle using cold water and a mild detergent such as Ivory Snow or Zero. Garments may also be dry-cleaned unless otherwise noted.
